Jess Lankford
Chief Administrative Officer

DEPARTMENT OF BUSINESS AND INDUSTRY
DIVISION OF INDUSTRIAL RELATIONS
OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

March 30, 2021

To Whom It May Concern:

Nevada OSHA has received the information you submitted regarding asbestos training course instruction in the State of Nevada. Nevada OSHA has reviewed the submitted information and is satisfied that this curriculum is adequate for the following disciplines:

Online Project Designer Refresher

CHC Training, LLC has demonstrated accreditation with the States of Colorado and Wyoming for previous disciplines as well as your confirmed approval for the aforementioned discipline.

While the EPA has set forth rules for asbestos training and training providers, known as the Model Accreditation Plan (MAP), not all States have developed and implemented their own plan of accreditation. Those States that have not done this must only enforce the MAP and cannot be less stringent. To this end, Nevada OSHA has found your training to meet the requirements of the MAP and is acknowledging that we are not opposed to you conducting asbestos training in the State of Nevada in accordance with the accreditation and training requirement guidelines specified in Nevada Administrative Code (NAC) 618.853, NAC 618.902, NAC 618.903, NAC 618.927, NAC 618.930, NAC 618.938, and NAC 618.939.

If you have any questions, please contact Nevada OSHA, Asbestos Program at 3360 West Sahara Avenue #200, Las Vegas, NV 89102 or via telephone at (702) 486-9064.

Sincerely,

A handwritten signature in blue ink that reads "John Hutchison".
